

Compact Time & Attendance Recording Terminal

# INTUS 5205

- + Inexpensive entry-level terminal
- + Large 3.5 inch color touchscreen
- + Antiglare finish
- + Integrated RFID reader

Time & Attendance  
Time Management

RFID reader  
Touchscreen

## Technical Data INTUS 5205

The INTUS 5205 time & attendance recording terminal combines a very compact housing with a surprisingly large color touchscreen. All information on the 3.5 inch display is perfectly readable. User control of the touchscreen is very convenient irrespective of finger size, and the microetched surface prevents reflections and minimizes fingerprints.

The integrated RFID reader supports various reading methods including Mifare DESFire EV1, Legic advant and Hitag.

The INTUS 5205 is your entry point to the world of time & attendance recording.

## Technical Data INTUS 5205.

### Features

- ARM RISC architecture
- 0.5 MB memory
- 3.5" display (320x240 pixels) with projected capacitive touchscreen
- Micro-etched surface to minimize reflections and fingerprints
- LED status display, buzzer
- Ethernet (10/100 Mbps)
- Integrated RFID reader (Mifare, Legic, Hitag)
- Real-time clock, calendar with lithium battery
- Tamper contact, lock
- Plug-in power adapter or PoE

### Software support

- Integrated security package including embedded firewall, data encryption and three-level password protection
- TCP/IP (IPv4 and IPv6) with DHCP
- INTUS COM communication software for Windows
- TPI-tasc terminal standard software for terminal parameterization
- Freely programmable in TCL
- INTUS RemoteConf Configuration and testing software for the INTUS 5000 models

### Environment, dimensions, weight

- Degree of protection: IP30
- Temperature range 0°C ... +50°C
- Dimensions (H x W x D): 200 x 102 x 41 mm
- Weight: 0.7 kg

### CE compliant

Product Design: ergon3, Munich
