INTUS 5200

Time recording with a lot of technology and space-saving

- Non-reflective colour touchscreen
- Membrane keypad as an option
- Integrated reader for RFID and Bluetooth®

The time recording terminal is a powerful device in a compact hounsing. The INTUS 5200 scores with its glass surface, layouts in selectable colours and is easy to operate. Encrypted communication ensures data security in time and attendance. Weather-resistant and robust, it is suitable for all industries.

We have compiled all the relevant documentation for the product on our website. Scan the QR code and get started.
